This Week: Pastor Grahame

Are we Living in the End Times? And a Biblical Response to AI

I am interrupting our series on the Sermon on the Mount to tackle, albeit briefly, a couple of topics that I have heard many of you talking about. That is, are we in the end times and what is a Biblical response to Artificial Intelligence. When you analyze Matthew 24: 5-14, there are at least eight signs that Jesus describes that will happen in the end times. All are in play at the moment.

So, what does the Bible say about Artificial Intelligence? Firstly, AI needs an ethical compass. This is why many people are interested and concerned about AI development without guidelines or policies. Secondly, AI is not life in the sense that humans are. We as humans may create AI, but humans stand alone as being created by God. Thirdly, AI does not bear the image of God. It has no soul. It cannot and does not respond to and relate with God. That too is unique to humans. This is what theologians call the doctrine of humanity.

You can collect a copy of the sermon notes from the foyer on Sunday mornings, or download them from our website www.ranuibaptist.org.nz
